

COLLABORATIVE LEADERSHIP ASSESSMENT– CLA

Engaging your leaders effectively in transformation processes

Is your organization ready to transform?

It's a fact: Leaders need a shared understanding and commitment to achieve successful change and transformation.

Our Collaborative Leadership Assessment is unique to Human Facts and will provide you and your organization with an independent snapshot about the collaborative leadership power among your leaders – the «value of we» of your leadership community.

How to use and benefit from our CLA

Are you about to kick-off a change or transformation initiative? Are you deep into one and would like to evaluate and refresh it? Are you looking for how to move from hierarchical to agile leadership?

Our CLA is a standardized stand-alone online-engagement survey which builds on our own research. We offer to drive the whole analysis process for you from start to finish:

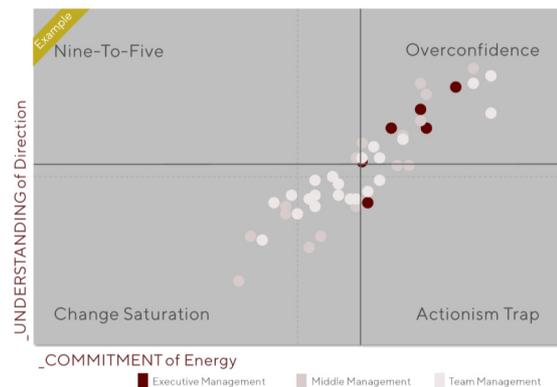

- _ Conducting the CLA-Online-Survey among your leader community
- _ Supporting you in communication and providing user-support where needed
- _ Comprehensive report, including executive summary and recommendation for actions
- _ 2-hours presentation and discussion with board of sponsors

Evaluate your «value of we» with the CLA

For effective collaborative efforts leaders need to have an aligned understanding about the organization's direction, and a shared commitment to this direction – across all hierarchical, geographical and functional boundaries.

Complete our Online-Questionnaire with 38 rating questions (German and English) to analyze the degree and nature of the leadership alignment among your leaders.

It informs you how "ready" you are for effectively implementing strategy, for example at the beginning of a transformation process.
